

TACTIGUARD™

6907

The Tactiguard™ Heat-Resistant Tactical Glove is designed for high-performance in demanding tactical environments. The glove features a combination of M/O DuPont™ Nomex® and Heat-hide™ leather, offering excellent heat resistance, durability and flexibility, making it ideal for operations involving extreme conditions. The palm is reinforced with digital leather, enhancing grip and durability while maintaining precision and control. For added protection, the glove is equipped with 5mm thick rubber padding at the knuckles, providing shock absorption and impact resistance in high-risk scenarios. The HPPE anti-cut liner offers superior cut protection, safeguarding the hands from sharp objects and abrasion. Additionally, the hook and loop closure ensures a secure, adjustable fit, allowing the glove to stay in place during intense activities. This combination of advanced materials and protective features ensures the TactiGuard™ provides outstanding performance, safety, and comfort for tactical professionals.

Technologies & Materials:

- 1  Impact protection with industry leading TPR inject technology on the palm.
- 2  Glove is made with heat hide which is fire retardant leather in accordance to EN659 standards and has enhanced grip properties for better performance in real time.
- 3  This Glove provides a cut protection on the palm side during any mechanical or tactical hazard and in accordance to EN388 cut protection level is E.
- 4  The material used in this glove provides exceptional dexterity, making it practical for handling or lifting up slim objects like a pen or opening handcuffs and keys.
- 5  Glove is made with DuPont Nomex which protects against burn and fire.
- 6  The glove's palm is reinforced for enhanced abrasion resistance, allowing it to endure multiple activities that involve frequent rubbing against the surface. This reinforcement helps protect the primary layer of the palm from damage, ensuring durability and longevity.
